**ANNOUNCEMENT RE: 2018 PROFICIENCY TESTING PROGRAM
 SCREENING DRUG TESTING LABORATORIES**

Pursuant to Section 16 of the "Implementing Rules and Regulations Governing the Accreditation for Drug Testing Laboratories" in the Philippines, the National Reference Laboratory for Environmental and Occupational Health, Toxicology and Micronutrient Assay located at East Avenue Medical Center (NRL-EAMC) is mandated by the Department of Health in coordination with the Bureau of Health Facilities and Services (BHFS) to implement Proficiency Testing (PT) program for all accredited drug testing laboratories nationwide. All accredited drug-testing laboratories applying for renewal of accreditation must participate and pass satisfactorily. The major goal of the program is to ensure the accuracy and quality of laboratory test results issued by DOH-accredited drug testing laboratories.

NRL-EAMC is pleased to announce the schedule of the 2018 PT Program for Screening Drug Testing Laboratory (2018 SDTL PT), the 9th PT since its implementation in 2009. Due to the national scope of this activity which comprises more than 1,000 accredited SDTLs, PT samples will be sent in 3 batches from February to July 2018 following the list below:

- February 26, 2018** - Cycle 1
- April 23, 2018** - Cycle 2
- June 18, 2018** - Cycle 3
- July 23, 2018** - Cycle 4*

*for laboratories who will fail and be given a repeat test

A participation fee of PhP1,000.00 will be charged to the participating laboratory to defray the cost of reagents, supplies, and other operating expenses. Laboratory may pay directly to EAMC Cashier in cash, Postal Money Order, Government check or Manager's Check using the following details:

For Postal Money Order

Pay to: East Avenue Medical Center
 Address: East Avenue, Diliman, Quezon City
 Sum of: One thousand pesos

For Manager's Check

Payee: East Avenue Medical Center

Participants are required to **register and completely fill out the attached registration form and submit it by mail/ courier to NRL-EAMC on or before May 31, 2018**. PT samples shall only be provided to laboratory after NRL-EAMC received registration and payment. Participating laboratories will be given ten (10) unknown samples of THC/Meth with different concentrations. These samples shall be treated as regular samples and analyzed using normal laboratory conditions.
